## **DETAILED ACTION**

## Specification

The disclosure is objected to because of the following informalities: The continuing data needs to be provided for page 2, line 10.

Appropriate correction is required.

## Allowable Subject Matter

Claims 1-79 are allowed.

The cited prior art does not teach or suggest means for separating an input beam into a first beam and second beam such that the first and second beams co-propagate and counter-propagate through optical components that operate on the power spectrum of the optical signals.

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 703 306 4155.
